Join us to learn more about the new Group Medicare Advantage plan options

IBM is happy to introduce two new Group Medicare Advantage plan options that will be available starting January 1, 2023. IBM has partnered with UnitedHealthcare to develop these two custom IBM-sponsored Group Medicare Advantage plan options.

These two plan options — the Enhanced Plan and the Essential Plan — combine the features of individual Medicare Supplement, Medicare Part D, Prescription Drug (PDP) and Medicare Advantage plans to provide nationwide provider access, prescription drug coverage and more. Both of these plan options provide rich benefits, broad protection, and unique features not available to you today through individual plans.

Join us to attend a virtual meeting to learn more about the new plan options available to you. Please be advised that each event is limited to 1,000 participants, so be sure to join the events early to ensure you save your spot. If an event is at capacity, please refer back to this event schedule for additional meeting opportunities. A recording of the meeting will also be posted online at retiree.uhc.com/ibm.
